

MITSUBISHI TANABE PHARMA AMERICA AND NEURODERM ANNOUNCE PARKINSON'S DISEASE PRESENTATIONS AT AMERICAN ACADEMY OF NEUROLOGY ANNUAL MEETING

***Phase 2 Data on Investigational Parkinson's Disease Treatment ND0612
Featured as Platform Presentation***

JERSEY CITY, N.J., April 18, 2018 – Mitsubishi Tanabe Pharma America, Inc. (MTPA) and NeuroDerm Ltd. (NeuroDerm) today announced presentations on Parkinson's disease (PD) at the 70th Annual Meeting of the American Academy of Neurology (AAN) in Los Angeles, April 21-27.

"We are excited to present new data from our expanding CNS portfolio, which we hope will help further understanding of the treatment of Parkinson's disease," said Jean Hubble, M.D., Vice President of Medical Affairs, MTPA. "Treatment options are needed to help control the symptoms and motor fluctuations associated with Parkinson's disease."

NeuroDerm will present results of a recently completed Phase 2 trial of ND0612, an investigational continuous subcutaneous infusion of levodopa/carbidopa for Parkinson's disease patients, during a Platform Presentation. When approved, MTPA will commercialize ND0612 in the United States. Both MTPA and NeuroDerm are wholly owned subsidiaries of Mitsubishi Tanabe Pharma Corporation (MTPC).

"Results from the Phase 2 study of ND0612 on reducing OFF time and troublesome dyskinesia in people with advanced Parkinson's disease are encouraging for the many patients who experience motor fluctuations despite available treatment," said Sheila Oren, M.D., Chief Medical Officer, NeuroDerm. "We look forward to seeing the results of our Phase 3 trials of this formulation of levodopa/carbidopa."

NeuroDerm medical representatives will be present at the MTPA-NeuroDerm joint medical booth at AAN.

Parkinson's disease data to be presented at AAN include:

ND0612 Presentations

- **The iNDiGO Study: A Multicenter, Randomized, Double-blind, Placebo-controlled Clinical Study Investigating the Efficacy, Tolerability, and Safety of Two Dosing Regimens of Continuous Subcutaneous ND0612 Infusion Given as Adjunct Treatment to Oral Levodopa in Fluctuating PD**

Abstract 044, Poster Session P2, Monday, April 23 from 11:30 a.m. – 7:00 p.m. PT

- **Efficacy and Safety of Subcutaneous L-dopa/Carbidopa (ND0612H) Infusion in Fluctuating PD Patients**

Abstract 003, Platform Session S26, Tuesday, April 24 from 3:54 – 4:06 p.m. PT

About Mitsubishi Tanabe Pharma America, Inc.
