

MTPA LAUNCHES NATIONAL ONLINE DIRECTORY OF ALS SPECIALISTS AND NEUROLOGISTS AT MULTIDISCIPLINARY CENTERS

JERSEY CITY, N.J., Jan. 31, 2019 – Mitsubishi Tanabe Pharma America, Inc. (MTPA) today announced the launch of a national online database of healthcare providers (HCPs) who treat amyotrophic lateral sclerosis (ALS). The [ALS Care Locator](#) is designed to provide a convenient, searchable resource to help patients and caregivers identify ALS specialists and multidisciplinary centers in their local areas.

“In our efforts to provide support to help people with ALS navigate their care, we identified a need for a convenient way to research healthcare providers with the specialized knowledge about this rare disease,” said Andy Fujimoto, President, MTPA. “As part of our commitment to the ALS community, we believe it’s important to provide this type of resource and are excited to be able to do so.”

Multidisciplinary centers listed in the directory include ALS patient advocacy organization sites. The database will continue to be updated with additional providers on an ongoing basis. For more information, go to Radicava.com/alscarelocator.

MTPA plans to expand the platform to provide additional resources to patients through this tool in the future, including details on infusion centers and home infusion services.

About RADICAVA® (edaravone)

The U.S. Food and Drug Administration (FDA) approved RADICAVA® (edaravone) on May 5, 2017 as a treatment for amyotrophic lateral sclerosis (ALS).¹ In a pivotal clinical trial, people given RADICAVA experienced on average a 33 percent slower loss of physical function, compared to placebo as measured by the ALS Functional Rating Scale-Revised (ALSFRRS-R), a validated rating instrument for monitoring the progression of disability in people with ALS.^{1,2,3}

Edaravone was discovered and developed for ALS by Mitsubishi Tanabe Pharma Corporation (MTPC) and commercialized in the U.S. by Mitsubishi Tanabe Pharma America, Inc. MTPC group companies began researching ALS in 2001 through an iterative clinical platform over a 13-year period. In 2015, edaravone was approved for use as a treatment for ALS in Japan and South Korea, and in 2018, the treatment received market authorization in Canada for the same indication.

IMPORTANT SAFETY INFORMATION

Before you receive RADICAVA, tell your healthcare provider about all of your medical conditions, including if you:

- have asthma.
- are allergic to other medicines.
- are pregnant or plan to become pregnant. It is not known if RADICAVA will harm your unborn baby.
- are breastfeeding or plan to breastfeed. It is not known if RADICAVA passes into your breast milk. You and your healthcare provider should decide if you will receive RADICAVA or breastfeed.

Tell your healthcare provider about all the medicines you take, including prescription and over-the-counter medicines, vitamins, and herbal supplements.

What are the possible side effects of RADICAVA?

- RADICAVA may cause serious side effects including hypersensitivity (allergic) reactions and sulfite allergic reactions.
- Hypersensitivity reactions have happened in people receiving RADICAVA and can happen after your infusion is finished.
- RADICAVA contains sodium bisulfite, a sulfite that may cause a type of allergic reaction that can be serious and life-threatening. Sodium bisulfite can also cause less severe asthma episodes in certain people. Sulfite sensitivity can happen more often in people who have asthma than in people who do not have asthma.
- Tell your healthcare provider right away or go to the nearest emergency room if you have any of the following symptoms: hives; swelling of the lips, tongue, or face; fainting; breathing problems; wheezing; trouble swallowing; dizziness; itching; or an asthma attack (in people with asthma).
- Your healthcare provider will monitor you during treatment to watch for signs and symptoms of all the serious side effects.

The most common side effects of RADICAVA include bruising (contusion), problems walking (gait disturbance), and headache.

These are not all the possible side effects of RADICAVA. Call your healthcare provider for medical advice about side effects. You may report side effects to Mitsubishi Tanabe Pharma America, Inc. at 1-888-292-0058 or FDA at 1-800-FDA-1088 or www.fda.gov/medwatch.
